CONTENTS

Determination of Nucleotide Sequences of Mitochondrial Plasmid pGT704 of Paramecium Caudatum .......................................................... 69

Unified Discrete Wavelet Transform with Ridge Regression and Principal Component Regression to Predict Concentration of Gingerol Compound in Ginger Crop.......................................................... Sony Sunaryo 74

Study on Carbide Tool Performance in Green Machining of Aeronautical Material: Q-T Models and Finite Element Analysis.............................. 80

Estimation of Surabaya River Water Quality Using Kalman Filter Algorithm.......................... Ali Masduqi and Erna Apriliani 87

Mixing Rule of Sanches-Lacombe Equation of State for Prediction of Solvent Solubility in Polymer Solution.................................................. Gede Wibawa 92
