Main office of Badan Penanaman Modal (BPM) located at Jalan Ngagel will move in the Jalan Pahlawan, exactly behind the Kantor Unit Pelayanan Terpadu Badan Penanaman Modal (UPT BPM). This is because the performance of the parts to make it easier in the office operational BPM.

East Java Provincial Government building is planned standing office building located behind the UPT BPM, has the same main entrance which is through Jalan Pahlawan. Both buildings are located in the old city of Surabaya, which has the feel of colonial buildings. The existence of this BPM office building will be the main office, but the architecture of the city, the new building is a long building infill building (office UPT BPM)

Special cases that arise in this project is how to make the new building remains a buliding infill of the old building.
