ABSTRACT

FINAL PROJECT REPORT RA. 191381

EVEN NUMBERED 2009 – 2010

- Title : Family Beauty Care
- Theme : Naturally Homey
- Leader : Wahyu Setyawan, ST. MT

Rapid development is affecting the pattern of community life, particularly on the needs and everyday lifestyle. Moreover, the beauty and fitness need not be difficult to achieve but the lifestyle today's society. The principal reasons are as one where the option to release the tired and weary for individuals or groups. Communities vulnerable to stress, and each of the above requirement to have each facility accommodate. Above requirement is very desirable for communities Samarinda thirsty for beauty and health needs. Where is all this lack of container to facilitate those needs.

This object is also supported by several other supporting facilities, such as boutiques, cafes, children playground, a swimming pool. The distribution of spaces according to function and gender. In addition the unit provides specialized care for the family to maintain the privacy of each visitor. Types of activities is personal care, fitness and hair treatment.

Comes with lots of mass formation due to adjust to the function of each building zones. Then follow the concept of the arrangement was composed according to the needs of the mass and area of function space.

With Naturally homey theme based on the notion that the container was overshadowed a range of activities related to beauty treatments, relaxation and exercise. For the convenience of residing in the circumstances and atmosphere of any object must support. In this case a natural atmosphere that is needed to generate an atmosphere of relaxation, comfort and calm in order to achieve the expected goals. The atmosphere was obtained by presenting the elements of nature and natural elements around which will be developed and incorporated into a contemporary.
