Football is the most popular sport in the world. Euforia is also felt by almost 80% in Indonesia. This can be seen from the existing bigotry football supporters. But this fact is not in line with the achievement of Indonesian Football Agency has ever accomplished in the era 60-80. So that an academy that focuses on the educational achievement of football is expected to return the Indonesian football.

Football academy which has been widely established in European countries has proven to produce quality young players.

The design of this college football academy based on standards that already exist. Like some of the existing football academies in Europe, as in the UK, Spain, and Scandinavia. The visits is standard educational curriculum standards, standards for space programs, capacity, until the selection of college admissions. And also discussed about the location of the building design, and application of the theme of 'Unity' which will appear in the application of design concepts and design scheme.
