ABSTRACT

Final Project Title: Kampung Batu Resort  
Student: Nova Adhitya Pratiwi  
NRP: 3206.100.001  
Period: 2010 - 2011  
Mentor: Wawan Ardiyan S.,ST,MT

Kampung Batu Resort is a resting place, recreation and also have educational facilities that are designed with the principles of Green Architecture. This is done by replacing the urban atmosphere with village atmosphere, noise and pollution is replaced with a calmness and coolness of mountain air, offering view of the forest, mountain, and city views from the heights. It is expected that visitors get the new adventures and more loving to the environment and locality after feel a design that close to nature. The location site is located in the Ngaglik village, Batu District, administrative town of Batu, Malang, East Java.

The theme chosen in this Final Project is the theme of Green Architecture in which the main principles in this theme is to mantain the existing ecosystem and also upholding local wisdom, and involve local residents to generate profit from this project.
