ABSTRACT

Food is one of the three basic human needs. Always and to kapanku, an entrepreneur in the
food will never lose customers. Besides today's competitive business in the field of food became
very popular and each - each trying to provide more value that is not commonly found elsewhere.
Given a typical regional culinary center Lamongan expected to provide a means to facilitate the
manufacture and sale of typical food Lamongan. Presenting public space with a new concept that
combines food and souvenirs typical of the area which supplied the place of manufacture therein.
Themed “bandeng Lele “ there is a symbol of Lamongan area may also have the presence of this
building could become a regional identity than as a marine tourism region is also a culinary
destination.
