Indonesia is a country that is still evolving today, improvements in
the enrichment of Human Resources (HR) will greatly help the progress
of our nation. Kindergarten is one of the means appropriate for children to
play and learning maximize the capability and creativity of children
in the golden age.

This Kindergarten located in Surabaya, which is the capital
of East Java, and the strategic location of Wisata Bukit Mas II which is one
of the best residential area of West Surabaya.

The design theme of the rainbow is expected to create an
atmosphere of kindergarten are more Childish and playful, so it
can stimulate the psychologically of children to always be creative and
come up with fresh new ideas. The design is in users access and space to
consider building a majority of the children.
