ABSTRACT

Billiard and café is one of the sport as well as a place of entertainment which attracted many people to spend leisure time and to relieve fatigue after the move. The planned facilities include a place to play billiards area, VIP area, internet facilities and café. The advantages of this design is a café where visitors can feel the atmosphere in the billiards area and the establishment of a positive image to the places of entertainment such as billiards, the results of this design is expected to provide comfort and safety for visitors.

In general, the billiard games most visitors are served by a score of men and sexy-looking girl. The atmosphere in the room seem dark and full of cigarette smoke and alcohol are usually available. This situation caused a negative image for women who visit there. Based on the above facts then design this time the theme of sport and fun. This theme is expected to lift the players sportsmanship and eliminate the negative impression on the billiard.

By finding a good and thorough design, the need for supporting various aspects of sport and fun themes that will influence the design concept from start to finish, and then entered the stage of analysis, the discovery of a logical problem to be designed. By applying some limits to solve the problem.

With its sporty concept and Billiard Café wants to eliminate the negative image once more to introduce this sport to the community pool pengunjung. Dengan this concept, especially for trying to present a modern appearance, elegant, full of confidence and charm to the atmosphere of the room there. Arrangement of rooms designed with modern style dynamic but orderly with the use of materials and colors that have the appropriate character to achieve unity.
