ABSTRACT

Baseball is a sport that is currently growing in popularity in Indonesia, especially in Surabaya. But there is still no baseball stadium which meets the international standard in Surabaya. There is also no organization for baseball enthusiasts, which made it very difficult for people to gain information on baseball. Ergo, Surabaya needs a new Baseball Stadium and a clubhouse in order to support the growth of this sport. Surabaya is chosen as a location because in Jawa Timur, Surabaya has the most number of baseball clubs. This project’s goal is to create a baseball stadium and a clubhouse with an image that portrays the activity inside, which is baseball, and also to provide a facility for players and enthusiasts alike.

Keyword : Baseball stadium, Clubhouse, Surabaya
