ABSTRACT

Indonesia is currently as a developing country. One of the problem is lowliness level of health in Indonesia. Lack of carelessness for indonesian. In addition, the mental of indonesian is worse. If we watch television news, read newspapers, magazines or listen to the radio almost every day there are negative news we’ve heard. The main problem occurs in our country is not about the rule, not the economy in crisis, not the officials who can’t work properly and impartial with the folk. The main problem is return to us, each of the indonesian people. Therefore, indonesian need building character for the better folk quality.

The design aims to create a design that suits with human needs and expected to be one solution for the problems above.
