ABSTRACT

Simple house type 36 is a much-loved home communities because they are relatively affordable, especially if modern concept. But in this simple house type 36 land area that can be used for kitchen is very limited, so the cooking activity to less than optimal. The kitchen in a simple house or equivalent type 36 houses have different sizes and layouts is 1.5x 2m, 2 x 2m, 2 x 2.5 m, 2 x 1.75m, 1.5 x 1.5 m.

Data collection was done by means of expert interviews, and observations of the 5 floor plan / layout. Furthermore, analyzing the layout of the kitchen and the activities the user needs to obtain the kitchen. Based on this analysis, the kitchen set is designed in the form of modules, which also provide added value aesthetically.

Final results generated from this study is a modular kitchen set with knockdown system that can be placed on the entire area of the kitchen in a modest home with an area of 4 - 5m² or the type commonly found in the home 36. Kitchen sets can also accommodate cutlery and crockery so that activity not just wide in the other room.
