CHAPTER VII
CONCLUSIONS AND RECOMMENDATIONS

VII.1. Conclusions
There are several facts could be concluded from this research.
1. The framework of critical factors in EPC project was developed based on the evaluation of three sources of data; the monthly reports, the minutes of meeting and the questionnaires.
2. There were eleven factor groups considered affecting the execution of EPC Project: Factors related to Project Manager, Factors related to Project Team Members, Factors related to Organization, Factors related to Environment, Factors related to Client, Factors related to Cost, Factors related specifically to Engineering, Factors related to Vendors, Factors related specifically to Procurement, Factors related specifically to Construction and Factors related specifically to Subcontractors.

VII.2. Recommendations
There are some recommendations can be given in this research.
1. Company needs to consider in early stage about the preparation of solid project team that understands the organization’s need rather than individual’s need. Qualification and competency of project team shall be considered as basis of project assignment.
2. Company needs to make a better preparation of project and home office system that is integrated to the operational project so that the system can be an inherent part of project that assures the quality of deliverable product.
3. Company needs to prepare an alert system in the project organization and the project system so that the factors, which cause the project delay, can be detected in the early
stage and the corrective actions become inherent and integral with the project operation.

4. Effective communication and report from project team to home office must be performed from the beginning of the project and there must be a random assessment to find out the healthy condition of project operation.

5. Raising the motivation of project team as a foundation of the company that gives contribution in gathering the good revenue and rising profit that later on will give attractive reward to employee.
