ABSTRACT

Title : Student “Pondok Pesantren”
Student : Sahru Romadhon
NRP : 3205.100.107
Period : 2008/2009
Counselor : Ir. Andy Mappajaya, MT

Student “Pondok Pesantren” is one of the facilities needs of the education sector, especially Islamic education. Student “Pondok Pesantren” is a non-formal education institutions are expected to become a partner of university in an effort to inculcate common values of religion (faith in Allah SWT) to students so that create balance between Iptek and Imtaq. The idea of a Student “Pondok Pesantren” has been declared long time ago by national leaders Muhammad Natsir. In the last ten years have been a lot of pop Student “Pondok Pesantren” in various universities in Indonesia. However, until this time there is no concept of a Student “Pondok Pesantren” representative, especially in terms of curriculum, facilities and architectural design.

Implementation of the theme of "Architecture as Pattern of Live" with the theme approach of "Behaviour Architecture" in doing of this final project is expected to produce a design of Student “Pondok Pesantren” who become a model and representative of all the Student Pondok Pesantren that are in Indonesia.
